19th June 2020

Hello Parents, Carers and students of Year 10,

It has been a really good and productive week and we have enjoyed seeing so many of you again. Many of you are looking a lot taller and with much longer hair!

All students have been extremely mature and respectful of each other and the social distancing rules that have been put in place. Your fantastic attitude during these uncertain times is highly commendable and we are very proud of you and the way that you have supported one another through these challenging times. It has been a very productive week with hours of work completed in school and at home. We have received positive feedback about the home learning resources and welcome any additional comments that you may have. We know that distanced learning can often present unique challenges and we are developing our programmes to support as many students as possible. Keep doing your best and you will achieve the success that you deserve.

If you are struggling with ICT and in particular ICT equipment at home please do contact the school and we will try to support you. Remember we have provided a wide range of work for you to focus on; there is no expectation that all of it is completed. Please continue to focus on the learning tasks that are sent home weekly and let your teachers know how you are getting on by submitting responses you would like feedback on. We hope that students are attempting approximately 5 hours of work each day – similar to the normal school timetable of lessons. If this is not possible, please do what you can.

You should have received your allocation of two sessions for next week's focus in school. If you have yet to receive your confirmation, please do contact me and I will be able to let you know.

From the week commencing 29th June, the focus in school will switch to core subjects (English, Maths and Science) as we look towards the final weeks of the year. We will contact you early next week with more details about the sessions and programme of study for the end of term.

I hope you have a sensible, safe and enjoyable weekend.

Kind regards,

Mr. Abram
Head of School
