Dear Parent / Carer,

As your Son/Daughter moves into year 11 it is vitally important that the maths department and students are aware of their current strengths and areas for improvement in maths. In order to plan for students' individual needs below is a link to a diagnostic quiz based on the topics that students have been covering during lockdown.

The quiz should take between 30-45 minutes and is made up of a series of multiple-choice questions designed to test your child's understanding, as well as highlight any misconceptions that they have regarding the topic.

Please select the quiz that fits your class:

M1 – Mr Griffiths

Please can this be completed by **Friday 17th July**.

If you have any queries about the quiz, are unsure which one to do, or have issues accessing it, please contact either myself or your Son/Daughter's maths teacher.

Yours sincerely,

Mr M Houghton
